## **SCUBA DIVING – A LIFESTYLE SPORT PROPOSAL TO INTRODUCE IN SCHOOLS**

Greetings from Scuba Evolution India, a company conducting a wide range of Scuba Diving Programs for children and adults, based in Goa. **Scuba Diving** is an activity in which we go underwater breathing from **Self Contained Underwater Breathing Apparatus (SCUBA)** and move at neutral buoyancy (weightless underwater) using fins. We are affiliated to **PADI** (Professional Association of Diving Instructors) which is the biggest dive certification agency in the world. We are a **5 Star Instructor Development Dive Resort**. All our courses and programs are internationally recognized and valid.

**Discover Scuba Diving** has been one of our very popular programs in which we train regular people (including non-swimmers) to breathe underwater using scuba gear and witness beautiful marine life. We have also been conducting **PADI Open Water Diver** courses in which we make certified scuba divers out of swimmers and also **advanced** courses and **specialty** courses for certified divers all the way up to the **professional Instructor** level.

**Our vision is to spread awareness and educate people about scuba diving so that they too can witness the beautiful underwater world.** Although there is no upper age limit to start diving but starting at a young age (minimum age is 10 Years) definitely helps. Young minds are like clean slates which take information more receptively and develop right practices that are deeply rooted. If the parents too are divers, then they can share the joy of diving together on their holidays. **The children learn about physics, physiology, and a lot of interesting things about ecosystems and natural science.** All of these they learn to apply. There is also the distinct **Personality Development** offshoot, since the activity helps overcome a primal fear factor (of going underwater), providing a tangible sense of **achievement** which helps in improving confidence and camaraderie. **Diving also makes students better aware of nature and care for its conservation.**

**We are offering the following programs for your students:**

**Bubblemaker:** The **minimum age** to participate in this program is **8 years**. They get a chance to experience scuba diving under the direct care of a professional Dive Instructor. The children take their first breaths underwater inside a swimming pool, blow bubbles and have a lot of fun. They also learn about the use of Scuba Equipment.

**AgeGroup:** 8 and 9 years

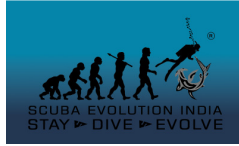

**Duration:** 4 hours (more or less depending on the batch size – Up to 1 hour per sub batch of 6 students)

**Batchsize:** Up to 24

## Description:

- The parents complete and sign the paperwork. (This can be done in advance)
- The group assembles together and hears the briefing given by the instructor.
- The children enter the pool in turns (with the instructor). They wear the scuba kit and go underwater for the fun session.
- After all the children have finished the pool session, they assemble again for a small debriefing by the instructor.

**Price:** 800/-perchild (650/- per child if pool facility (minimum 4.5 feet depth) is provided by the school.

**\*GST @ 18% will be payable in addition to the quoted price**

**Discover Scuba Diving:** The **minimum age** to participate in this program is **10 years**. The children learn the basics of scuba including equipment use and their functions, basic underwater skills like regulator recovery and mask clearing, moving underwater and get guidance on the next steps to take on continuing dive education.

**Age Group:** 10 years and above

**Duration:** 1 hr 30 mins (per session – up to 4 sessions can be conducted in a day)

**Batchsize:** 16 - 20

## Description:

The participants complete and sign the paperwork. Parents sign for the minors as required. (This can be done in advance)

The group assembles together and hears the briefing given by the instructor covering breathing and ear equalization techniques, equipment use, hand signals, under water skills, and aquatic life awareness.

All participants enter the pool. They wear the scuba kit and go underwater. They practice a few basic underwater skills like breathing underwater, Regulator clearing and recovery, mask clearing, equalizing and swimming underwater with fins.

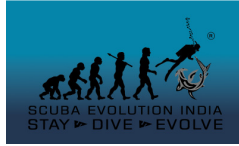

After the pool session, the participants assemble again for a small debriefing by the instructor.

**All participants receive a PADI Discover Scuba Diving Certificate after successfully meeting the performance requirements, which is recognized worldwide.**

**Price:** 1500/- per child

**\*GST @ 18% will be payable in addition to the quoted price**

## **Discover Scuba Diving with Open water dive at Grande Island:**

The minimum age to participate in this program is 10 years with no upper age limit. The participants learn the basics of scuba including equipment use and their functions, basic underwater skills like regulator recovery and mask clearing and moving underwater in the safety of a swimming pool. They then go diving in open water at Grande Island. The dive is up to 30 mins long underwater in direct supervision of an instructor. The participants get underwater photographs, a short video, snacks and refreshments on boat, Certificate of completion from PADI and a lunch packet.

**Swimming is not necessary for the program and you need to be in good health. It is strongly recommended that no flights be undertaken upto 12 hours after the dive.**

**Age Group:** 10 years and above

**Duration:** 3:00 pm to 5:00 pm for pool; 8:00 am to 2:30 pm for open water dive trip  
(usually on the following day)

**Batch Size:** 12

**Description:**

### **Day 1 (SEI Dive Centre in Anjuna – Pool Training):**

- **3:00 pm:** The participants complete and sign the paperwork. Parents sign for the minors as required. (This can be done in advance)
- **3:30 am:** The group assembles together and hears the briefing given by the instructors covering breathing and ear equalization techniques, equipment use, hand signals, underwater skills, and aquatic life awareness.
- **3:45 pm:** The participants enter the pool in batches. They wear the scuba kit and go underwater. They practice a few basic underwater skills like breathing underwater, Regulator clearing and recovery, mask clearing and equalizing.
- **5:00 pm:** After the pool session, the participants assemble again for a small debriefing by the instructor.

### **Day 2 (Open Water Dive at Grande Island):**

- **8:15 am:** Participants arrive the boarding point (Sinquerim Jetty)
- **8:30 am:** Participants and instructors board our boat and head towards Grande Island for the Open Water Dive. En-route enjoy the sights travelling south along the coast of

---

Goa, most likely **see dolphins** on the way and have some light refreshments on the boat. There are fruits, biscuits and a sandwich each for breakfast on the boat for participants.

- **9:50 am:** Start dive. SEI crew helps participants to kit up and roll back from the boat into the water. The dive is **25-30 mins long underwater. Pictures and a short video of each participant is taken.**
- **12:15 pm:** We start our journey back and enjoy fruits and refreshments on the boat.
- **1:40 pm:** We reach Sinquerim Jetty. All participants get a lunch packet and the PADI Discover Scuba Diving Brochure. Participants who have successfully met the performance requirements are awarded PADI certificate of completion which is recognized worldwide.

## **Note:**

The above schedule is based on a batch size of 12 participants. If the number of participants is upto 24 then we can form two batches. So on Day 2, after the first batch comes back from their open water dive, the second batch arrives in the second half at SEI dive centre in Anjuna for their Pool training. Similarly if the number of participants is upto 36, then we can do this in three batches.

**Price:** INR 4000/- *per participant (minimum batch size for this special pricing is 12)*

**\*GST @ 18% will be payable in addition to the quoted price**

**The Open Water Diver Course:** This is a certification course. Validating the quality of the PADI System of diver education, **many institutions and national educational councils around the world recommend PADI scuba courses like this one for college credits**, occupational certificates or educational funding. Once certified, you can go diving around the world with other certified buddies to a maximum depth of 18 metres without needing an Instructor. You will have two days of theory & pool training and two days of diving in the Open Water. You will view the Open Water Diver course video, answer quiz questions, and have classroom session of Dive planning followed by the final exam. In pool training you will learn about 24 skills including emergency skills. There will be two days of Open Water diving in which you log 4 dives and practice some of the skills you learned in the pool.

**Swimming is necessary for the program and you need to be in good health. It is strongly recommended that no flights be undertaken upto 18 hours after the dives.**

**Age Group:** 10 years and above

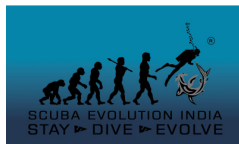

**Duration:** 4 days; 8:00 am to 4:00 pm (The course can be split over 2 weekends i.e in 2 sessions of 2 days each, to suit school day requirements)

**Minimum Batch Size:** 4-6 participants ; Maximum batch size – 8-10 participants (with sufficient notice for planning).

**Price:** INR 19,500/- per participant (minimum batch size is to be maintained to avail this special discounted price)

**\*GST @ 18% will be payable in addition to the quoted price**

**\*\* Please note that all open water diving at sea can be conducted only from mid-Oct to mid-May at Goa, the remaining months of monsoon being unsafe to go to sea. However pool programs can be conducted throughout the year. Also pool training portion of the courses can be done and open water diving undertaken at a later date or at a different location, which we can facilitate.**

We hope you will find a program of your liking and would like to join us on these underwater adventures. Do let us know if you have any questions and we will be happy to answer them.

In each of the programs above, we add a bit of environment awareness, as children are the best ambassadors to create this awareness about care for our oceans, and by extension our planet. As divers, we are acutely aware of the way our oceans are being stifled by human impact (waste dumping, over fishing, industrial effluents etc.), and the children can benefit from this knowledge, enhancing their own education, and also spread the word about it to the community at large.

We look forward to working closely with your school to introduce and propagate Dive Education to the future generations.

With best Regards  
Commander Skandan Warriar (Veteran)  
Director
